

TRANTECH TT24 ELECTRONIC TURBINE FLOW METER

TT24

Description

The Trantech TT24 Flow meter adopts the concept of modular design, with features of complete function, simple construction and easy operation. Widely used in petroleum, commercial and general purpose liquid flow rate and total flow measurement applications.

Technical Data

Suitable Mediums	Diesel, gasoline and water
Outlet and Inlet size	1" BSP Male threaded
Measuring accuracy	±1%
Repeatability	±0.5%
Max working pressure	7 Bar
Flow-rate range	10-120L/MIN (Displays Flow Rate)
Rate Display	0.00 - 999.9
Total Display	0.00 - 999999.9
Measurement unit	L, GAL, PTS, QTS
Single measurement reset	RESET (Total)
Battery Type	2 x AAA 1.5V

Other battery operated flow meter options

TTMGM-B - Trantech mini gear meter

TTGME - Trantech oval gear meter

TTMTM - Aluminium turbine meter
