

TRANTECH TTMTM ALUMINIUM ELECTRONIC TURBINE FLOW METER

TTMTM-25 (25mm)

TTMTM-40 (40mm)

Description

The TTMTM digital flow meter features a factory calibrated LCD screen that displays the total flow rate in gallons or litres. The turbine design and high-quality components allow for inline flow totals to be accurately measured.

Technical Data

Flow Range	10-120 L/min
Pressure Rating	21 Bar
Computer	09 LCD - 2 totals (resettable/cumulative) and rate
Fitting	1-inch BSP Female thread
Wetted Materials	Aluminium housing, ceramic bearings, 316 stainless steel rings, PVDF rotor, tungsten carbide shaft
Accuracy	±1.0%
Operating Temperature	-18 to +60°C
Repeatability	±0.5%
Display	Gallons or Liters (Displays flow rate)
Battery Type	2 x AAA 1.5V

Other flow meter options

TTMGM-B - Trantech mini gear meter

TT24 - Turbine meter

TTGME - Trantech oval gear meter
